Education

- 2023 - 2024 **YouCode,**
Specialization: Front -End Development
- 2014 - 2016 **Fitzwilliam Institute, Dublin**
Specialization: Computer Science (score: 95%)
- 2015 **C++ Institute**
Specialization: C++ Programmer
Certification: Associate Programmer Certification
(Score: 83%)
Blanchardstown Institute of Technology,
Co. Dublin, Ireland.

- 2003 - 2007 **University of Applied Science , Nysa, Poland**
Specialization: Computer Science
- 1999 - 2003 **John Sobieski High School, Nysa, Poland**
Specialization: Mathematics, Informatics, Physics
Leaving Certificate: Achieved with Distinction Grade

Work Experience

03.2024 - 05.2024: *Group Project at YouCode*

- Participated in an intensive group project as part of the YouCode programming course.
- Enhanced technical skills and teamwork abilities through collaborative coding.
- Applied Git and GitHub for version control.
- Engaged in team meetings, task organization, and thorough code reviews.
- Managed code versions and collaborated on a shared codebase.
- Gained experience in teamwork, project management, and modern development practices.
- Project Demo: <https://boostertech.github.io/MovieBrowser/>

2021 - present: *Usher Insulations, Crew Leader, Truck Driver*

- Oversee insulation installation projects and maintain safety standards.
- Coordinate logistics, manage project timelines, and drive large vehicle to job sites.
- Honed leadership skills, project management abilities, and logistical planning.

05.2011 - 2021: *Trim Castle Hotel, Food & Beverage Assistant*

- Provided exceptional customer service and ensured smooth dining operations.
- Developed strong communication, teamwork skills, and attention to detail.

04.2005 - 05.2011: *The Station House Hotel, Banqueting Supervisor*

- Managed event setups, coordinated with clients, managed inventory and collaborated with a team to deliver high-quality service.
- Required excellent organizational skills, multitasking, and customer engagement.

2003 - 03.2005: "Cukry Nyskie" Ltd, Assistant of Computer Technician

- Assisted in maintaining network infrastructure, troubleshooting technical issues, and ensuring system reliability.
- Provided foundational knowledge in computer networks and technical problem-solving.

Personal Skills

- **Organized and Efficient** : Strong ability to manage and prioritize work effectively.
- **Analytical and Creative Thinking** : Excels in both analytical problem-solving and creative idea generation.
- **Lifelong Learner** : Highly motivated to gain new knowledge and skills, enjoying the learning process.
- **Quick Learner** : Capable of rapidly assimilating new information and skills.
- **Team Player and Leader** : Effective at working in a team and driving team efforts.
- **Strong Foundation in Mathematics and Physics** : Excellent understanding of fundamental concepts.
- **Licensed Driver and Pilot** : Holder of 'B' and 'C' driving licenses and a Private Pilot License (PPL).
- **Diligent and Responsible** : Known for diligence, responsibility, punctuality, and a problem-solving mindset.

Throughout my experience, I have developed a knowledge in various front-end technologies and tools, including:

- **HTML** : Crafting semantic and accessible web content.
- **CSS** : Implementing BEM convention, Grid, Flexbox, and Animations/Keyframes for responsive design.
- **JavaScript ES6+** : Utilizing modern JavaScript features like Promises and Async/Await.
- **React** : Building user interfaces with React, using React Router for navigation and Hooks for state management.
- **Redux** : Managing application state with Redux, including using Redux Toolkit and Redux-Saga.
- **Styled-Components** : Creating modular and maintainable styles.
- **APIs** : Fetching and handling data with fetch and axios.
- **Git & GitHub** : Using Git for version control and collaborating on GitHub through pull requests.
- **Team Collaboration** : Working effectively with team tools like Trello for project management and Figma for design, and understanding Scrum practices.
- **NPM** : Managing dependencies with Node Package Manager.
- **Markdown** : Documenting and formatting content with Markdown.
- **Immutability**: Applying basic principles of immutability for reliable data management.
- **Responsive Web Design** : Designing layouts that adapt to different screen sizes and devices.

These skills have been developed through my projects and learning experiences, laying a solid foundation for further growth in front-end development.

Hobbies

- **Technology Enthusiast**

Passionate about exploring the latest tech trends and experimenting with web development projects. I enjoy building web applications and designing user-friendly interfaces.

I also enjoy MCU programming, particularly with STM32 Nucleo-64. It gives me a lot of satisfaction to see how software can control hardware.

- **Fitness Enthusiast**

Dedicated to maintaining a healthy lifestyle through regular gym workouts focused on strength training and cardio. This commitment enhances my energy, focus, and discipline.

- **Licensed Private Pilot**

I enjoy the challenge and precision of flying. This hobby not only reflects my commitment to learning and mastering new skills but also enhances my ability to remain calm and focused under pressure. The discipline and attention to detail required in aviation complement my work as a front-end developer, where precision and problem-solving are key.

I agree to process my personal data included in my job application for the needs of the recruitment process.
